Founded in 1979, Interior Concepts is a full-service design firm with 50 employees and a tenured Sr. design team. Projects range from family homes, beach getaways and mountain retreats to prestigious estates and flats. The process begins with an understanding of the client's needs, financial scope and timing. "Our goal is to exceed expectations," says Critzos. "We emphasize creativity and professionalism while creating what we believe is the most valuable facet of a person's life: their environment."

The interiors of a Georgetown flat (top) are warmed by a mix of art and objects, texture and interest, including a series of charcoal sketches; in one corner (opposite), the hammered-iron frame of a white-suede chair matches sleek mirrors and a textural bench, while in the cozy den (above), oversized paintings provide drama alongside objects in neutral tones, natural hide and stone finishes.
