ARLENE CRITZOS & COURTNEY GRIFFIN

Interior Concepts is a full-service interior design firm. Principal Arlene Critzos and senior residential designer Courtney Griffin emphasize creativity and professionalism, striving to exceed their clients' goals.

Founded in 1979, Interior Concepts, Inc., designs a broad spectrum of projects, from family homes, beach houses, mountain retreats, large flats and estates to corporate headquarters, world-class golf clubhouses and international hotels and embassies. ICI has worked throughout the United States and across the globe. "Our strength lies in how we approach each project, with systematic order," says principal Arlene Critzos. "We never begin without understanding the client's needs, budgetary and quality expectations and timing." Critzos' design vision developed from living, studying and traveling overseas.

1. OWNERS' SUITE

The hand-painted sage-green bed provides a contrast with the cobalt walls in a master bedroom. Custom accents of coral and a shell motif add pattern and interest to the room.

2. FAMILY ROOM

An oversized custom iron-and-stone cocktail table centers a family room, providing both beauty and function.
