## Arlene Critzos

*Interior Concepts brings a modernist touch to a Bethany Beach getaway*

Clients with a modern vacation retreat in Bethany Beach turned to Interior Concepts to create a sleek, family friendly getaway that would be a departure from their Traditional style main residence. Working with architectural challenges that included unusual ceiling angles and large expanses of glass, principal Arlene Critzos along with Joyce Pearl and Samantha Sopp-Wittwer conceived a minimalist interior envelope detailed with organic tile, sculptural lighting and whimsical pops of vivid color through dynamic modern art. Functional built-ins maximize sleeping space for the couple's teenagers. "This is an unexpected interior for a home just one block from the ocean," Critzos observes. "The location and architecture allow for ocean breezes and natural light, all perfect for a vacation environment."
